Product Collection	Intel® Atom™ Processor E Series
Code Name	Products formerly Bay Trail
Vertical Segment	Embedded
Processor Number	E3827
Status	Launched
Launch Date 	Q4'13
Lithography 	22 nm
Recommended Customer Price 	
Use Conditions 	Automotive, Industrial Commercial Temp, Industrial Extended Temp, Embedded Broad Market Commercial Temp

Performance

# of Cores 	2
# of Threads 	2
Processor Base Frequency 	1.75 GHz
Cache 	1 MB L2
TDP 	8 W

Supplemental Information

Embedded Options Available 	Yes
Datasheet	View now

Memory Specifications

Max Memory Size (dependent on memory type) 	8 GB
Memory Types 	DDR3L 1333
Max # of Memory Channels 	2
ECC Memory Supported † 	Yes

Processor Graphics

Processor Graphics † 	Intel® HD Graphics for Intel Atom® Processor Z3700 Series
Graphics Base Frequency 	542 MHz
Graphics Burst Frequency	792 MHz

Intel® Quick Sync Video 	Yes
--	-----

# of Displays Supported ‡	2
---------------------------	---

Expansion Options

PCI Express Revision 	2.0
--	-----

PCI Express Configurations ‡ 	x4, x2, x1
--	------------

Max # of PCI Express Lanes 	4
--	---

I/O Specifications

USB Revision 	2.0, 3.0
--	----------

Total # of SATA Ports 	2
---	---

Integrated LAN 	No
--	----

Integrated IDE 	No
--	----

UART	Yes
------	-----

Package Specifications

Sockets Supported 	FCBGA1170
---	-----------

T _{JUNCTION} 	-40°C to 110°C
---	----------------

Package Size	25mm x 27mm
--------------	-------------

Advanced Technologies

Intel® vPro™ Platform Eligibility ‡ 	No
---	----

Intel® Hyper-Threading Technology ‡ 	No
---	----

Intel® Virtualization Technology (VT-x) ‡ 	Yes
---	-----

Intel® Virtualization Technology for Directed I/O (VT-d) ‡ 	No
--	----

Intel® VT-x with Extended Page Tables (EPT) ‡ 	Yes
---	-----

Intel® 64 ‡ 	Yes
---	-----

Instruction Set 	64-bit
---	--------

Enhanced Intel SpeedStep® Technology 	Yes
--	-----

Intel® HD Audio Technology 	Yes
--	-----

Security & Reliability

Intel® AES New Instructions 	Yes
---	-----

Intel® Trusted Execution Technology ‡ 	No
---	----

Execute Disable Bit ‡ 	Yes
---	-----

All information provided is subject to change at any time, without notice. Intel may make changes to manufacturing life cycle, specifications, and product descriptions at any time, without notice. The information herein is provided "as-is" and Intel does not make any representations or warranties whatsoever regarding accuracy of the information, nor on the product features, availability, functionality, or compatibility of the products listed. Please contact system vendor for more information on specific products or systems.

Intel classifications are for informational purposes only and consist of Export Control Classification Numbers (ECCN) and Harmonized Tariff Schedule (HTS) numbers. Any use made of Intel classifications are without recourse to Intel and shall not be construed as a representation or warranty regarding the proper ECCN or HTS. Your company as an importer and/or exporter is responsible for determining the correct classification of your transaction.

Refer to Datasheet for formal definitions of product properties and features.

"Announced" SKUs are not yet available. Please refer to the Launch Date for market availability.

Some products can support AES New Instructions with a Processor Configuration update, in particular, i7-2630QM/i7-2635QM, i7-2670QM/i7-2675QM, i5-2430M/i5-2435M, i5-2410M/i5-2415M. Please contact OEM for the BIOS that includes the latest Processor configuration update.

‡ This feature may not be available on all computing systems. Please check with the system vendor to determine if your system delivers this feature, or reference the system specifications (motherboard, processor, chipset, power supply, HDD, graphics controller, memory, BIOS, drivers, virtual machine monitor-VMM, platform software, and/or operating system) for feature compatibility. Functionality, performance, and other benefits of this feature may vary depending on system configuration.

See <http://www.intel.com/content/www/us/en/architecture-and-technology/hyper-threading/hyper-threading-technology.html?wapkw=hyper+threading> for more information including details on which processors support Intel® HT Technology.

Max Turbo Frequency refers to the maximum single-core processor frequency that can be achieved with Intel® Turbo Boost Technology. See www.intel.com/technology/turboboost/ for more information.

The Recommended Customer Price ("RCP") is pricing guidance for Intel products. Prices are for direct Intel customers, typically represent 1,000-unit purchase quantities, and are subject to change without notice. Taxes and shipping, etc. not included. Prices may vary for other package types and shipment quantities, and special promotional arrangements may apply. If sold in bulk, price represents individual unit. Listing of these RCP does not constitute a formal pricing offer from Intel. Please work with your appropriate Intel representative to obtain a formal price quotation.

System and Maximum TDP is based on worst case scenarios. Actual TDP may be lower if not all I/Os for chipsets are used.

For benchmarking data see <http://www.intel.com/performance>.

Intel processor numbers are not a measure of performance. Processor numbers differentiate features within each processor family, not across different processor families. See <http://www.intel.com/content/www/us/en/processors/processor-numbers.html> for details.

Processors that support 64-bit computing on Intel® architecture require an Intel 64 architecture-enabled BIOS.
